

Test Assignment

Test Summary Report

Modules tested during the Test:

1. Application Form

Test Run Results

Total	Passed	Failed	Blocked
11	8	3	0

Found Defects

ID	Title	State	Severity
1	[RWD] The Slider captcha resets to the default state after sliding it to the right end of the tracker	Active	Major
2	The image preview is absent after selecting an image to upload	Active	Tweak
3	The fields are filled after refreshing the page	Active	Minor

Suggested Approvements:

1. Add the Reset button to reset fulfilled fields on the Application Form page
2. Unify the validation errors on the Front-End
3. Mark the Required fields with an asterisk sign
4. Design improvements:
 - a. less wide fields
 - b. less wide Submit button
 - c. Replace the Slider on the Text Captcha
5. Remove errors from the Browser Console and Network (it is recommended to have a clean console logs and failing requests in the network)
